

Belle Glade's City Commission in extraordinary session Wednesday morning formally asked the Belle Glade Ministerial Association to provide memorial services for the 27 drowned persons Sunday at 3 p.

Community Memorial Services Sunday, May 26th - 3 P. M. - Armory

in the Belle Glade Armory.

Indications of a record crowd from both races are already in the hands of Chairman Zumpf of the Mayor's Disaster Committee, which will make the

physical arrangements for the services.

"We know," says Mayor Markham speaking for the Commission, "that the community feeling is very deep and marked for the relatives and friends of

these unfortunates. We can do no less than pay our respects and contribute to the consolation of those left behind." Reserved seats will be provided for families of deceased.

12 Children, 15 Adults Drown—15 Escape Labor Bus In 20 Feet Of Water

"Everything Worked Smoothly" Says Hiway Captain Of Rescue, Recovery And Identification Saturday

"I have never seen an operation of that magnitude where everything worked so smoothly," says Captain J. W. Hagan, District Director of the Florida Highway Patrol, when asked concerning the rescue work following the drowning of 27 laborers in the Hillsboro Canal of the accident. Trooper Emerson

worked the case, with Cpl. Blocker and Sgt. Bennett of the Highway Patrol, assisting. Deputies Roselle and Turnbull of my office were also assisting. Two wrechers, one from South Bay Truck Stop and one from Terry's Auto Parts pulled the bus from the canal, with John Ellison of South Bay, diving to place chains on the submerged truck.

Ambulances of Taylor's Funeral Home and Williams' Mortuary made regular trips to the Armory with the bodies with teams to keep the Armory group busy in their tagging and identifying.

Deputy Hilton Bonard was in charge at the Armory, assisted by Officer Joe Kadel of the Belle Glade Police, and was later joined by two identification officers of the Sheriff's office, Mr. Ragsdale and Mr. Green.

Civilians filled in wherever needed in removal from the bus, transportation and arrangement for identification at the Armory.

Doug Wooten reports that by 6:20 most of the bodies had been laid out on a large synthetic sheet at the Armory, and covering sheets of the same material for each body. Each body was given a number on tag fastened to the foot until positive identification.

Ministers, nurses, doctors, (Continued On Page 2)

City Commission To Be Asked For Bus Regulations

"We have for years allowed governments in upper echelons to regulate equipment and operation of farmers transportation equipment, but the Saturday tragedy points a way for self-help," says Mayor Markham. "I will ask the Commission at its Wednesday night regular meeting to consider passage of emergency ordinances to require mechanically acceptable equipment, proper drivers' licenses and insurance for the protection of riders."

R. E. Tucker Heads Nat'l. Banker Assn.

At a meeting held last Thursday, May 16, Mr. Russell E. Tucker, Vice President and Cashier of Florida National Bank of Belle Glade, was elected President of the Gulfstream Conference of the National Association of Bank Auditors and Controllers. The Gulfstream Conference comprises the counties of Indian River, Okechobee, St. Lucie, Martin, Glades, Hendry, Palm Beach and Broward and has approximately 45 banks within this boundary.

The Association meets monthly for the purpose of exchanging ideas for the improvement of banking, both for formulating and introductory of banking laws, procedure and auditing. Those banks that belong to the association have benefited by obtaining more accurate ways of auditing.

The association is sending Mr. Tucker to Buffalo, New York, for a refresher course of banking industry as pertains to new equipment and procedures.

Glades Co. Co-op. Appoints de Armas As Gen. Manager

Roger M. Weeks, President of Glades County Co-op., announces that "the management contract signed with Industrial Consultants and Management Co., has been cancelled, and Mr. de Armas has been appointed General Manager of the Corporation."

"Mr. de Armas will have full powers to conduct the business of the Association under the direction of the Board."

ROTC SPONSORS CAR WASH

The ROTC group of fifty senior high school students who are raising money for a post-graduation trip to Elmin in the Bahamas, is scheduling a car wash in Grant's parking lot for this Saturday, May 25. All cars will be cleaned inside and out. Pick-up service can be obtained by calling WY 8-3408.

Road Dept. Rates Brown Farm Road "Critical" "Poor And Critical Ten Years Ago" Says Report

Highway patrolmen and Sheriff's deputies are patching the physical evidence together to determine just what did happen in the 27-victim drowning Saturday afternoon.

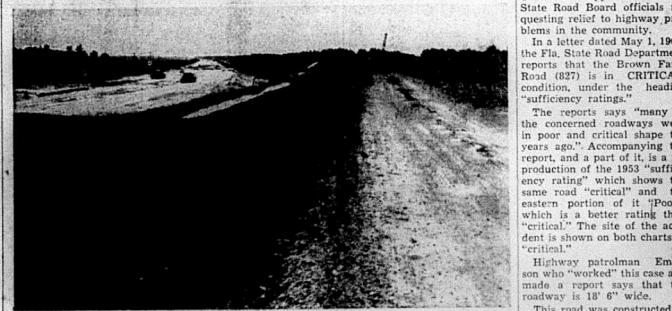

According to the police report the left front tire of the bus was "10 feet 7 inches west of the east shoulder of the road; they travelled together for 32 feet, the pickup travelled 152 feet 8 inches, stopping with the right wheels on the roadway and the left wheels on the shoulder."

The bus travelled "18 feet up the highway where wheels left the road, and then travelled 96 feet" to point where it rolled into canal.

It is reported that the roadway is 18 feet, 6 inches wide at the point of contact.

Lieutenant Clarke of the Sheriff's office reports that the water is approximately 20 feet deep where the bus went in.

Construction On Long Needed U. S. No. 27

Rock material is taken from the Rim Canal which parallels Hoover Dike to construct U. S. No. 27 in Palm Beach County, eastward to Lake Harbor.

Application for use of the rock from Lake Harbor to South Bay is announced by the Corps of Engineers in Jacksonville.

The material is taken from the canal, and transferred over the dike to the road site.

27 Dead - 15 Escape Drowning In Labor Bus Traffic Accident

Not since the '28 hurricane has this Glades community been shocked as it is at the drowning of 27-12 children and 15 adults in a traffic accident Saturday afternoon at approximately 4:15 p. m.

A field labor bus loaded with 42, owned and driven by Edgar Lee "Poor Boy Slim" Anderson, entered into a 20-foot canal paralleling State Road 827 (Brown's Farm Road) following contact with a passing pickup owned and driven by Jas. Somers of South Bay, Fla.

Five Children Among Survivors

Five Children, ages eleven to fifteen were among the fifteen who escaped drowning in the labor bus which plunged into the Hillsboro Canal.

Rescue and recovery operations were systematic and carried out with the bodies arranged in the Armory at Belle Glade for identification. Nurses, doctors, ministers and friends assisted in the identification and handling of frantic friends and relatives.

By dusk, those in the bus had been taken out catalogued and identified, except a few, who were later identified by relatives and friends.

Dragging operations were continued Saturday night and again Sunday morning, with no results and no additional missing reported.

Twenty-three of the drowned were taken from the bus and (Continued On Page 2)

Some months ago Belle Glade officials and the Chamber of Commerce appeared before State Road Board officials requesting relief to highway problems in the community.

In a letter dated May 1, 1963, the Fla. State Road Department reports that the Brown Farm Road (827) is in "CRITICAL" condition, under the heading "sufficiency ratings."

The reports says "many of the concerned roadways were in poor and critical shape ten years ago." Accompanying the report, and a part of it, is a reproduction of the 1953 "sufficiency ratings" which shows the same road "critical" and the eastern portion of it "Poor," which is a better rating than "critical." The site of the accident is shown on both charts as "critical."

Highway patrolman Emerson who "worked" this case and made a report says that the roadway is 18' 6" wide.

This road was constructed in the early twenties when the Brown Farm was the principal activity in the Glades next to catfish fishing. Intermittently it has been patched and reconstructed.

Glades voters have successfully ridden Tallahassee candidates over the road during campaigns in order to extract promises of relief.

Shoulders between the road and canal are "about three feet"; the banks of the canal are precipitous. It's similarity to a roller-coaster is marked, except that the surface is not contained in a horizontal plane. Glades citizens have months ago pledged themselves and many elected officials to the proposition to make this road a State Highway, modern and safe, along the south banks of the Hillsboro and atop the dike now built there. Over the years it has been pointed out that this is a direct route to Boca University and to the lower east coast of the county.

Students of traffic and safety engineers agree that the condition of the road should bear a great blame for the Saturday accident.

What Problem Is This "Critical" Road

Who is responsible for this Brown Farm Road?

We've heard the County Commission has some jurisdiction! We've also heard and have participated in conference with the State Road Department officials concerning the inadequacy of this road!

We don't know, but we've heard that the Governor of the State has considerable to do with just where the Road Department spends money and allocates funds.

Evidence of the Highway Patrol is that the labor bus involved in last Saturday's tragic accident was taking it's half of the highway from near the center — it was 10' 7" from it's right hand side, on a roadway that is 18' 6" wide. The center of the roadway would be at 9' 6".

It's common knowledge that drivers of these labor buses tend to straddle the center of this road for their own sake, because of the up-and-down surface, holes, narrowness, etc.

Let's face the fact that, as Lieutenant Verne Clarke says: "The Lake Okechobee steal by pork-chop votes in Tally would lessen even more the money available for county roads."

Public officials must revalue the rights of the Glades to roads remembering the \$100 million annual agricultural production which adds hundreds of thousands of tax collections in the County and in Washington.

It's unfortunate that 27 lives lost is the price necessary to emphasize this!

Sugarcane—

63-64 Acreage Restriction Removal Boon To Domestic Sugar Producers

Harry Vaughn, President of U. S. Sugar at Cleveland and domestic quotas increased by that amount."

Mr. Vaughn is not optimistic about substantial increase in milling facilities in the Glades due to time required to build new mills and the scarcity of high yielding lands.

With the recent increase in quotas given to present farmers

there is a scramble for close-in land to bring tonnage production to assigned quotas and to mill capacities.

Senator Holland and Congressman Rogers issued an announcement from Washington on the lifting of acreage quotas with hopes that "the action would bring greater benefits to Florida."

Architect Cones's Design Of Pahokee Branch Everglades Federal Saving Loan Association

Richard A. Poston, Executive Vice President of Everglades Federal Savings and Loan Association announced today that the Federal Home Loan Bank Board in Washington, D. C. has approved and authorized the opening of a branch office by Everglades Federal Savings and Loan Association in Pahokee, Florida on or before October 31, 1963.

Plans and specifications for a new, modern building are completed. It is anticipated that construction will begin in the very near future, or not later than June 15th. The new building will contain 3600 square feet with a drive-in teller window, community room and adequate parking facilities.

The branch office will be located at 323 Bacon Point Road adjacent to the new Pahokee Post Office Building. The opening of the office in Pahokee will prove to be a convenient and attractive location for the people of the city and vicinity in transacting their business with Everglades Federal.

Up-to-date, efficient services will be provided for the public by a staff consisting of a branch manager and two other personnel. The branch manager and assistants have been selected, but a formal announcement of this will be made in the near future.

The establishment of this office culminates the efforts on the part of the management and directors of Everglades Federal which have been in progress for over a year and a half.

Agriculturally Speaking

by
JOHN CAUSEY
Associate County Agent
Glades Area

The rainy season will soon be upon us and with the rains we can expect mosquitoes. Mosquitoes can be very annoying not only to us but to the livestock in the pastures. To control mosquitoes in these pastures, we find that the materials that can be safely used are very limited due to the residue problem on the grass; however, the following suggestions are offered:

1. Malathion. 57 percent Emulsifiable Concentrate mixed at the rate of 4 gallons in 95 gallons of water, or
 2. Dibrom 8 Emulsive mixed at the rate of 6 and one-fourth pints in 100 gallons of water.
- Apply ONE GALLON of either of the above FINISHED MIXTURES by airplane in the morning or late in the afternoon. Do not apply in the heat of the day.
- Other additional comments:
1. Do not apply more than the labeled amounts.
 2. Mix only the amount of spray needed for an application. Do not store mixed materials.
 3. Follow precautions on the label.
 4. June 7th and 8th are the dates set for the First Annual Light Horse Short Course to be held in Gainesville at the University of Florida and is being jointly sponsored by the University and the Florida Quarter Horse Association. A very interesting program has been worked up and anyone interested in Light horses should make arrangements to attend. Some of the topics to be discussed are elements of genetics, reproductive physiology, diet and reproduction, nutrition, breeding hygiene, anatomy and care of feet, parasite control, general horse diseases, marketing regulations for imported horses.

Cardinals Hold League Loop

The Belle Glade Cardinals were idle last Sunday but maintained a full game lead in the Inter-Glades Baseball League as Pahokee trimmed Okeechobee 11-3. Lake Harbor beat Ritz 13-6, and Salerno came from behind to nip Sand Cut 13-9 on a last inning rally.

The Cardinals were to have played the Miami Glants but due to difficulties which occurred to the Miami club the game was postponed and will be rescheduled at a later date.

The league-leading Belle Glade club will travel to Clewiston to oppose Ritz Sunday in league action, with game set at 2:00. Alphonso "Spookie" Walker or Junior Meadows will get the mound assignment against the sixth place team in the seven team loop.

Probable starting line-up:

1. Willie Robinson, lf
2. Clarence Ridley, c
3. Mack Bigelow, rf
4. Willie Singleton, cf
5. Alvy Early, ss
6. Ollie Davis, 1b
7. James Johnson, 2b
8. Sid Hudson, 2b
9. Al Walker or Jr Meadows p

PRESCRIPTIONS

ARE FILLED PROMPTLY!

No pharmacy can guarantee immediate delivery of drugs, because many prescriptions demand time-consuming processes. But we do fill your prescription promptly that is, without undue delay. We also make fast, emergency delivery right to your home, day and night.

WILSON'S PHARMACY

WHERE TOP QUALITY IS THE BYWORD

terstate travel and horse show management.

For the Home Gardener: For those of you who are lucky enough to have a few peaches on your tree they will soon be ripe. To keep the worms from beating you to them we would like to suggest that you spray two to three weeks before ripening with Malathion 25 percent wettable powder using 4 tablespoons per gallon of water plus 3 tablespoons of wettable sulfur of 1 and one-half tablespoons of 50 percent Captain wettable powder. This should keep the peaches clean of worms and allow you to enjoy them without fear of "wormy" fruit.

If you have several trees you can use 1 pound of 25 percent Malathion wettable powder plus 1 and one-half pounds of wettable sulfur or one-half pound of 50 percent Captain wettable powder in 25 gallons of water.

Those of you who have mango trees your County Agent's Office has two very good publications on this fruit. Bulletin number 174 entitled, "Mango Growing in Florida" and Circular number 147 entitled "Controlling Mango Insect Pests" are available and we will be glad to mail you a copy if you will call or you may stop by and pick it up.

Jack Mathewson Home

From Western Slope

Jack Mathewson returned home last week after spending the past eight months in the Pacific Northwest. Jack visited with friends in his former home area, Wendell and Twin Falls, Idaho, before going on to the West Coast. He spent several months with his older brother, Chet Mathewson and wife and visited frequently with his brother George and family in Portland.

Nello Greer Home

From Dakar, Africa

V. Nello Greer arrived back in the States Sunday evening from Dakar, West Africa, where he spent the past 18 months in construction work with Raymond International Co.

A pioneer of the Glades, Nello has spent the major part of the past ten years in overseas work, but still considers Belle Glade "home."

The jet flight left Dakar at 11 a. m. Sunday and landed Nello in Miami at 11 the same evening. He was met by his wife Mildred, son Vance and family and spent a few days at the Vance Greer home in Ft. Lauderdale.

Mr. and Mrs. Greer drove to Orlando Wednesday evening to stay thru the graduation on May 30th of their daughter, Gloria, from Mt. Verde High School.

Blanton & Unwin Awarded Contract

On BG Jr. High

The Board of Public Instruction of Palm Beach County unanimously awarded the contract for Belle Glade Junior High School, Phase 11, to Blanton and Unwin, the low bidder, a bid amount of \$108,835.00 at a special session held May 15th.

Bradcock Construction Company was next low bidder with a bid of \$127,380.00.

Pulling a bus loaded with 23 persons from 20 feet of water is a considerable job and it took two very heavy wreckers working together to do the job. When the bus had been drawn up sufficiently to open the doors, bodies were removed.

The driver, John Ellison of South Bay is shown over the sunken bus, as he prepared to go down and fasten chains to the bus.

Rugway patrolmen, Sheriff's deputies and auxiliary police officers were frustrated by the crowd visiting the scene of the accident Saturday afternoon.

More helpers were on hand than needed, and many stayed around to watch the lifting of the bus which contained the bodies of 27 drowned victims.

The narrowness of the road, with no side-road relief, presented a problem that taxed the patience of officers.

COUNTY SOLICITOR MOUNTS is aided by Highway Trooper

In making measurements of road and shoulder widths and distance from the 20 feet depth canal,

citizens with assigned duties to take whatever steps are needed to care for the final disposition of bodies and care for survivors and relatives.

Many have been alerted that cameramen of nefarious past records in the community are here with intentions not accepted as friendly or American.

There are those who hope these visitors will conduct themselves with propriety, and not follow previously demonstrated inclinations.

Six bodies have been moved to Sanford by relatives and friends, two have been buried Wednesday, five are scheduled for burial Thursday, and two are at a funeral home in West Palm Beach. Burial arrangements for the others had not been determined late Wednesday afternoon.

It is reported that the bus driver had no insurance; he has been operating with a suspended driver's license for some two years. Two of the victims are reported with insurance and had been with South Florida State

ROBERTS SAYS:

PL-PD Insurance & Overcrowding Legislative Must

I sincerely feel that our laws should provide adequate insurance protection for our citizens involved in this type of accident and that every effort should be made to prevent overcrowding which could contribute to additional loss of life in similar situations.

The tragic accident which occurred Saturday, May 18 in Palm Beach County, taking the lives of 27 migrant agricultural workers including 12 children, has shocked the citizens of my area, and I am sure citizens all over the state.

I have requested an investigation by the Railroad and Public Utilities of the conditions surrounding the bus accident.

One of the questions that concerns me greatly at this time is: do our present laws provide adequate insurance coverage in this situation? I have scheduled meetings with the Industrial Commission and the Insurance Department this afternoon to request special reports as to areas of coverage and responsibility. I will request immediate consideration by our Public Safety Committee of the passage of emergency legislation to close loopholes in our present laws.

There is tremendous interest nationally as well as state-wide in the problems of our migrant agricultural laborers both in housing and transportation areas. We have made much progress in Florida — particularly since 1957 in our efforts to improve housing conditions. This accident, of course, could have occurred anywhere in the country, from my observation.

The easiest thing of all is to receive one's self; for what a man wishes is generally believed to be true.

— Demosthenes

Reserved Seats

For Families Of Victims

Mr. Zumpf's Committee late Wednesday afternoon met for making arrangements for the Memorial Services Sunday afternoon.

At press time it was announced that arrangements are completed to provide a reserved section for members of the families of the victims.

White and colored members of the Ministry will occupy the platform, and a majority of the services will be conducted by colored pastors.

Fallout Shelters

60% Marked in Fla.

The Engineers announced that the marking of 1,000 fallout shelters qualified is about 64 percent completed, which is ahead of the national average of 40 percent marked.

Some reluctance is found on the part of owners to have qualified buildings marked, other than for their own employees.

Palm Beach County has 17 of the estimated 28 buildings qualified already marked.

Roberts Asks Check

On No. Of Bass In Lake

Representative Roberts is in receipt of a letter from Director Aldrich of the Fish Commission informing him that "I am asking our fisheries biologist Mr. Clayton Phillips to investigate the fish population changes in Lake Okeechobee" in response to your request.

HEART FUND

Belle Glade Garden Club Installs 34th Slate

2nd Lt. Mrs. Albert (Marie) Butler, Director of District 10 Florida Federation of Garden Clubs, Lake Worth installed the 1963-64 slate of officers. Mrs. Glenn Smith was installed president; Mrs. J. P. Halbrook, Jr., vice president; Mrs. Lonnie Warren, proxy for Mrs. C. L. Williams, recording secretary; Mrs. Ray Browne, corresponding secretary and 1st Mrs. J. C. Fessenden, treasurer.

The Belle Glade Garden Club held its regular meeting May 16 at the Civic Center, with everyone enjoying a covered dish luncheon. Each of the 14 members present introduced their guests.

Mrs. J. P. Halbrook, Jr., president.

Each officer and Mrs. Butler were presented lovely corsages of dried materials made by Mrs. Van Horn.

Mrs. Halbrook thanked the hostesses Mrs. Della Altman, Mrs. J. C. Fessenden and Mrs. Irvin Zumpf. The tables were attractively decorated with red bougainvilleas.

Guests attending were Mrs. J. L. Fessenden, Mrs. A. P. George, Mrs. Ralph Kidder, Mrs. Fay E. Stewart, Mrs. W. D. Roth and Mrs. Stuart Shields.

June 6 will mark the last meeting for the season, which will be a sandwich luncheon at Mrs. C. J. Aspey's home. New officers will present program for ensuing year. Swimming will be enjoyed in the Aspey's pool. Hostesses will be Mrs. Aspey and Mrs. Don Aspey.

Research staffs in annual Husbandry Departments from Experiments Stations at Gainesville, Range Cattle Station, Ona, Brooksville and West Florida, Quincy will meet at Everglades Experiment Station Thursday noon through Saturday noon.

The group of some 25 will be take on tours of farms and ranches, discuss field tests and coordinate research projects made during the year.

Okeechobee Waterway Channel Shoals To Be Dug From Stuart To Ft. Myers

Bids will be opened May 29 by the U. S. Army Corps of Engineers in Jacksonville on a \$100,000 maintenance dredging job in connection with the Okeechobee Waterway. It was announced today by District Engineer Colonel H. R. Parfitt.

The 8-foot project depth of the Okeechobee Waterway between the Intracoastal Waterway at Stuart and the Gulf of Mexico at Fort Myers will be restored under this contract. Shoals which have developed in the 140-mile-long waterway will be removed. Colonel Parfitt said he said some 150,000 cubic yards of material are to be excavated.

Shoals in the following areas

Caloosahatchee Work Includes Ortona Lock

The U. S. Army Corps of Engineers in Jacksonville has awarded four contracts for civil works projects in Florida costing nearly half a million dollars. District Engineer Colonel H. A. Parfitt announced today.

Colonel Parfitt said the largest contract, costing \$244,147, went to Kenneth Read Construction Corp., of Melbourne, Fla., for modifications to Ortona Locks on the Caloosahatchee River in Glades County. The work involves removal of the existing weir of the spillway and replacing it with a two-bay spillway with two 23-by-10-foot electrically operated gates. The work is being done in connection with enlargement of the Caloosahatchee floodway channel and raising of dikes around Lake Okeechobee as a part of the Central and Southern Florida Flood Control Projects. The entire job must be completed by July 1, 1964, Colonel Parfitt said.

Smoke Tax Highest Liquors Follow

Collections of taxes on cigarettes and alcoholic beverages sold in Florida continue to mount, with April's report showing a 5.40 per cent increase over the same period last year, according to Richard B. Keating, State Beverage Director.

Cigarettes continued to account for the highest collection with slightly less than \$30 million received during the ten months. Liquor followed with more than \$18 million, beer over \$18 million and wine more than \$5 million. Miscellaneous fees from permits and licenses make up the balance of the \$74 million dollars, the Beverage Director explained.

All monies collected by the Beverage Department are supplied to the State General Revenue Fund except for cigarette tax. Most of this is returned to the municipality where it is collected.

Of the total of \$20,317 Glades communities received for the month of April, Belle Glade got \$10,994, Palatka \$3,898, Clewiston \$3,460 and South Bay \$1,863.

When you give... we can help

Run On The Library

At the Florida High School Library Council held in Leesburg on the weekend of May 3rd, Ellen Keesee was elected director of the 11th district which consists of seven counties. The Library Club of B. G. H. S. which is made up of students from grades seven through twelve, is an efficient and active group that helps students select and check out books and aid in other library duties.

State Wide Meeting Slated At Ex. Station

Robert L. Catlin Will Be Speaker At Everglades Presbyterian Church

Robert L. Catlin of Coral Gables, Fla., will bring the message at the 11 a. m. worship service Sunday in the Everglades Presbyterian Church, Belle Glade, Fla. This successful and outstanding business man will tell something of his spiritual experience and how God has led him to the place where he can say "Life begins at forty." Mr. Catlin is an elder and an active church member in Riviera Presbyterian Church, Coral Gables. He has recently resigned his position as national director of sales for General Development Corp., to go to Columbia Theological Seminary this fall in preparation for giving full-time service in the work of the Kingdom of God.

This active lay church worker had this to say about this drastic decision: "I don't think you have to enter the ministry to serve God. But if you are called to the ministry you can't be happy unless you do it. My family and I had about all people could want in material blessings yet money did not bring complete happiness. My wife, Jayne and my two daughters join with me in making this decision for Christ."

The public is cordially invited to hear this account of how God worked with a man.

The Sunday evening Youth Meetings will be entertained in the home of Mr. and Mrs. U. H. Felling, 548 E. Palm Beach Road. The program will be directed by Mrs. C. L. Stuart, and Mr. and Mrs. Joe McIlwaine.

Walking With God

By Roscoe Knight

It is said of Enoch that he walked with God. The Bible further shows that he pleased God as he walked here upon this earth. It seems that we should walk in a manner that would please God.

Let us at the beginning consider many ways that do not please God. First, there are ways that are false. God said through the Psalmist that, "I hate every false way." One of these false ways is the way of the ungodly. Psalmists one says that way shall perish. We learn again that the way of the transgressor is hard. The wise man said that it is not in man that he can walk to direct his own steps.

Coronation Service Marks 50th Anniversary of Girls Aux.

The First Baptist Church sanctuary was the setting of an impressive candlelight Coronation service of the Girls Auxiliary, Sunday, May 19th at 8:00 p. m.

The stage was decorated with yellow and white flowers with a background of palms flanked by lighted tapers in candelabras. Centered with a beautiful Crown and five gold stars. The Crown carried out the theme "The Royal Diadem."

The candlelighters were Ted Burgess and Gerald Pittman. The crown bearer was Doyle Cunningham.

Questioning of the girls was by Mrs. Leo F. Danilovitz, Junior Counselor. Presenting awards was by Mrs. J. R. Nutt, Intermediate Counselor. The charges to the girls was by Mrs. J. Richard Heller, president of the W. M. U. of the Palm Lakes Association.

Taking the Forward steps advancing to Maidens were Catherine Holton, Geraldine Lockwood, Melissa Schoepel, Jennie Lynn Snow, Marie Snow, Sandra Sprinkle, Lady-in-Waiting was Sherri Burgess. Princesses were Gretchen Danilovitz, Harriett Dunlap, Dianne Richardson, Diane Ward.

Highlight of the evening service was the Coronation of Cynthia Nutt as Queen of Girls Auxiliary, her mother Mrs. J. R. Nutt being honored with the crowning of her daughter.

This year marked the 50th anniversary of Girls Auxiliary with over 300,000 girls active in this organization of the Southern Baptist Convention.

Along with missionary programs, mission study, community missions, prayer, stewardship, a special emphasis of Girls Auxiliary is the Forward steps. Junior and Intermediate girls advance from Maiden to Lady-in-Waiting to Princess to Queen. Two advanced steps for the Intermediate girls only are Queen with Scepter, and Queen Regent.

Their work is approved by each Counselor and each girl must pass satisfactorily before a Reviewing Council. Each step the girls take require a lot of study, memory work and in some steps research work.

Some steps require a lot of study, memory work and in some steps research work. The girls take a step not only present their work, but also

help to serve as a means the inspiration and information to the congregation.

Closing comments were made by Mrs. Heller. Benediction was by Rev. Ed Straner. Organist

for the service was Mrs. John Youngblood.

After the service a reception was held in Fellowship Hall sponsored by the W. M. U. of the church.

Protestants And Catholics Will Join Natl'ly In Placing Cuban Refugees

Protestants and Catholics will cooperate nationally in placing Cuban refugees in homes and jobs, it was announced today.

The action was agreed upon following several conferences between official of Catholic Relief Services and Church World Service. The latter is the overseas relief and rehabilitation agency for twenty-seven Protestant denominations in the United States and a department of the National Council of Churches of Christ of the U. S. A.

The Reverend John W. Schaefer, Director of CWS Immigration Services said today: "We now have very few resettlable Protestant Cubans who have not as yet been given a home and job opportunity, following a two and a half year period during which thousands were screened and flown to many parts of the country where Protestant churches found them haven and employment for them."

"In view of the fact that Church World Service has a large backlog of home and job placement opportunities in various parts of the country, we would like to make these opportunities available to refugees who are registered in Miami with the Catholic Relief Services," Mr. Schaefer declared.

"The agreement provides that Catholic Relief Services in Miami will explain the meaning of the joint inter-faith action to the Cubans still on their rolls awaiting placement. Inherent in that agreement is the understanding that while Protestant groups will assure the responsibility for the refugees' initial welfare, including home and job placement as well as related services, they will not intrude in any way with regard to the religious belief and practices of these newcomers to our shores."

The CWS official stated: "The joint agreement also provides that Church World Service will inform Catholic Relief Services upon arrival of the individual refugee or family at their destination. This will enable Catholic diocesan authorities to notify the local Catholic pastor."

Where sufficiently large groups of refugees are scheduled to settle in one specific area, CWS will charter air flights. Individuals or smaller groups will be transported by regular airline flights. It is expected that

Youth For Christ Dinner Meeting Tonite For Parents And Friends

Youth For Christ, under the directorship of Chuck Van Den Berg has been working with teenagers in Belle Glade since the first of the year.

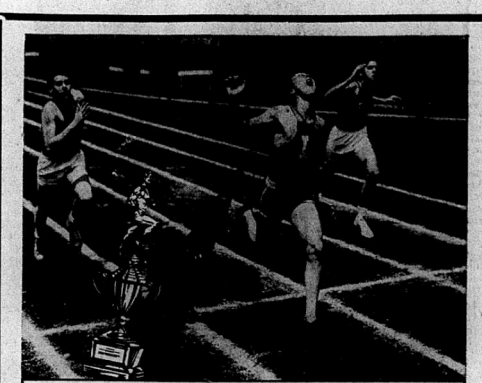

The organization feels it would be advantageous to have friends and parents alike meet with them in order to acquaint every one with the work of Youth For Christ.

A dinner meeting has been planned tonight at 7 p. m. at the Civic Center in Belle Glade. Both husbands and wives are invited. Tickets may be obtained from any of the teenagers in the Youth For Christ Club.

The speaker of the evening will be Ted Placo, Florida Director of YFC and also director of Miami YFC.

Liberty is the only thing you cannot have unless you are willing to give it to others.

—William Allen White

THE FAST PACE OF LIFE

You'll find lots of people concerned about the tempo of life today. But most of them simply catch a breath when they can, and try to keep up with the pace.

There is something more important! The winner trains... and plans his race. He may lag behind for a while, but he is confident of hidden resources. When others have burned up their energy and enthusiasm, he forges to the front. As they wilt in the home stretch, he sprints across the finish line.

The Church can help you train... and plan! A Christian is concerned with his own spiritual stamina rather than the fast pace of life. He is ready with hidden resources when the moment of challenge comes.

FARMING THE BLACK GOLD

This week, the Belle Glade Herald initiates the use of this column. As a welcome to this outstanding paper and in recognition of the importance of the area it serves, this week's column will be devoted to farming the black gold.

The importance of the muck lands around Lake Okeechobee as a vegetable production area can best be illustrated by a trip through the area. Without this first-hand observation almost anything written upon the subject is likely to be taken with a grain of salt. First, the blackness of the muck is beyond description. Attempts to compare it with coal, the darkness of a moonless night, or any other known point, would not do justice to it. It is black!

It is also fertile. But don't get the impression these farmers don't use fertilizers. They wisely supply the needed nutrients which are sometimes absent for a variety of truck crops.

Neither is farming the black gold a one-horse operation. Many of the farmers in the area have become incorporated. It is a big business. And sometimes big risks are involved. However the Glades farming area has maintained a stability which has weathered most crises.

Agriculture is one of the main productive activities in the Sunshine State. The muck land agriculture is responsible for its increasing importance at a time when more and more people are aware of industrialization pressures. Palm Beach County alone has seen an additional 16,000 acres devoted to truck crops in the last decade. According to the Florida State Department of Agriculture the county had 108,640 acres under cultivation in 1961.

Important in accurately assessing the productive capabilities of this 120,000 acres, the reader must remember more than one crop annually is produced on the land.

Providing technical guidance and professional assistance in times of stress has been the county's outstanding Agricultural Agent. Known simply as "Red" Mounts, Mr. Mounts has helped overcome problems of farming the black gold for over 30 years.

An indication of the effectiveness of his service and the willingness of the muckland farmers to farm wisely is the increased production they are getting from their acreage. Examples are listed below: (the first figure is for the 1947-48 season and the second, 1960-61) Snapbeans — 87 to 123 bushels per acre. Green corn — 80 to 176 crates per acre. Peppers — 284 to 364 crates per acre. and Tomatoes — 147 to 250 crates per acre.

Farming the black gold contributes not only to the financial stability of Florida but to the happiness of well-to-do Americans from Florida to New York. The rich muck lands around Okeechobee are just one part of Florida's Natural Wealth.

Elks Golden Antler Award

Exalted Ruler Lee Berryhill is presenting to Lester Berryhill the Golden Antler Award provided by the District Deputy Grand Exalted Ruler for outstanding work to the benefit of the Elks Lodge and to the Club.

LEE took particular pride in this presentation because his lodge had voted his brother this award.

Roberts Says: Governor Gets Special Report

Representative Roberts gives THE HERALD this special report from Tallahassee this afternoon by phone.

The tragic accident claiming 7 lives near Belle Glade Saturday has had repercussions in Tallahassee. The Governor asked for a special report to determine areas of responsibility.

I am meeting this afternoon with the Industrial Commission and the Railroad Commission and the Public Utilities Commission and the Department of Public Safety to discuss the report and determine legislation needed.

Some 3,000 bills and more have been introduced up to now in the House and Senate with many more yet to come. There will be talk of an extended session if final passage of needed bills is accomplished; this is a "big if."

The House is now meeting in joint morning and extended afternoon sessions in an effort to reduce the size of the Calendar which is now 50 pages in length.

Senator Baker, Representative Thomas and I met Monday with the Governor favoring our request to veto the Lake division bill. The Governor was non-committal and we will have to wait developments. There is a tremendous interest throughout the state in the impact of this bill.

I am hoping that the report of the Road Department will serve as an immediate goal for the community to get behind and get action. With the sugar industry and our vegetable industry and the increasing population more attention must be given to our roads problem.

I am extremely hopeful that we will be able to hold the ap-

propositions for our schools, Florida Atlantic University, and the Glades Correctional Institute.

Next week will be an hour of discussion for Florida.

Remodeled Banking Quarters

Sunday afternoon several hundred friends and patrons of the Bank of Pahokee roamed the spacious new quarters at a "House Warming."

This Oldest Bank in Palm Beach County has modernized its building "from stem to stern," and has added floor space more than equal to previous room.

At the Sunday afternoon "shindig" President Mock displayed a catfish and a few beans as representative of the main industry of '22.

Today's industries were represented by a display of vegetables, sugarcane and attractive pictures of cattle operations.

Jerry Thomas Asks 5 Years 11 Months Age For 1st Grade

In recent years past I have talked with school administrators and teachers about the difficulties encountered when a child under six years of age enters the first grade and is not mature enough to undertake regular school work. Studies show that many of them experience failures. These immature children might not experience failure until the 2nd, third, fourth or fifth grade. After this they can easily become problem children at school and become candidates for later drop-outs.

The present school law permits a child to enroll in the first grade at the age of five years and nine months old. Children

who reach the age of six during the remainder of January, February and March will be six years and nine months old or provides for a twelve month range of age in the first grade.

Last year the public schools in Florida experienced a first grade failure rate in excess of 11 percent of the enrollment, and in some areas in excess of 15 percent. A study of child development and mental hygiene has made clear the devastating effects which are brought about by early failure of a child.

The cost to the state of retreating pupils who were not promoted is a staggering amount if it were possible to only cut in half the failure rate in the first grade, a savings of close to two million dollars would result. Such a savings would be enough to pay 400 additional teachers or to construct almost a hundred new classrooms.

Col. Bob Cooper To Manage Glades Livestock Market

Col. Bob Cooper, present auctioneer, will become full time manager of the Glades Livestock Market effective Monday, May 27, according to an announcement by the board of directors. Col. Cooper is succeeding "Buster" Ingram, who has been pinch hitting on this job on a part time basis since February of this year. The directors invite cattlemen to come out and discuss any problems you may have in this line of business, with Col. Cooper who will be glad to see you.

The offering this week totaled 494 head of cattle for \$48,428.85, with 38 percent going to slaughter and 62 percent to stocker. 29 percent of the run was cows, with 75 percent going to slaughter.

Next Week We will have one consignment of 60 head of 500-800 lb. steers.

Another reminder that we will have 100 Crossbred Steers (Angus-Hereford) and 25-35 Brahman Steers — 500 pound average — from near Indianapolis.

Okeechobee Waterway Annual Boat-A-Cade Set For 8:30-9

The Okeechobee Waterway Association, at its last regular meeting at Clewiston, designated August 30-31 thru Sept. 1st, as the dates for the annual Boat-A-Cade.

Communities around the Lake and those bordered by the Waterway are included in the project.

Committees and publicity work have already begun.

Harold Zumpf Head Mayor's Committee On Disaster Events

Mayor Markham following a hurried conference with the Housing Authority Tuesday night asked Harold Zumpf to head a group of key citizens whose purpose is to furnish whatever is needed for the victims and families of the Brown Farm Road bus accident.

W. C. Taylor, funeral Director, and a designated member of the Committee, was informed Tuesday night that pending organized activation, there would be furnished on his recommendation funds and services for victims and families.

One case of definite dire need appeared Tuesday, and others are anticipated.

Immediately following the announcement by the Housing Authority that it would make funds available pending a campaign for public donations, three checks were handed Mr. Zumpf.

Other members of the Committee designated by the Mayor are City Manager Scrum Chamber President Bob Lee, Chief Goodlett, Editor Verda Matheson of THE HERALD, Jim Wierzeno, Chairman of the County Migrant Committee, and Mrs. Marie Bregger. Others will be added during the day Wednesday.

Chairman Zumpf announced that he is forming a group of ladies taken from organized groups of the community and individuals, to conduct a campaign of solicitation from business firms and individuals.

The Mayor said: "If there are any funds remaining when these unfortunate are cared for they will be held intact for future use in similar circumstances." "The Committee's activities are to include whatever coordination, assistance and aid, planning, physical or financial needed by the families of victims."

Handling Pesticides Is Dangerous

Pesticides and insecticides are poisons. And what's poison to insects can be an irritant or worse to people, according to Changing Times, the Kiplinger Magazine.

In the current issue of the magazine, the editors list the following basic rules for home gardeners:

—If using a spray: Don't breathe the vapors. Don't smoke when spraying. After spraying and before eating or smoking wash hands and face thoroughly.

—If using a liquid or powder: Wear gloves to keep the poisons off hands. Should poison accidentally spill on unprotected skin, wash immediately. Always wash hands and face after skin using.

—Read the label carefully before opening the package. Fail to do so may result in misuse or injury to the person handling the poison.

—Never store the contents in anything but the original container with the label intact. When the container is empty get rid of it. Even a small residue of the poison might be disastrous if young children find it.

—Don't store the container on the same shelves with household cleaners or food packages. Pesticides should be kept in a separate area, out of reach of children and pets, and as a double precaution, with a warning POISON sign prominently displayed in the area.

XTENDER! FOR BETTER WEED CONTROL

- Increase weed killing Power of Herbicides.
- Increase Leaf Absorption of Weed Killers
- Reduce Surface Tension of Weed Killing Sprays
- ACTUALLY MAKES WATER WETTER!

XTender! is a Surface Active Agent to be used with all Translocation type Herbicides such as 2,4-D, 2,4,5-T, Dala-pox, Karmex and Telvar. By reducing the interfacial tension and solubilizing oil like and wax like substances in the plant XTender; increases the effectiveness of herbicides and often allows less material to be used for control of grasses and weeds.

Conservation And Economics

For a number of years there have been proponents of conservation and proponents of economics in such programs. Some where along the line these groups have often failed to find a common meeting ground where they could calmly discuss their respective views.

The problem in conservation is made more difficult by the heterogeneous nature of each group. The idea of conservation may cause some conservationists to appear as different as Senators Herman Talmadge and Hubert H. Humphrey. Similar adverse views apply to the group called the economist.

The problem is not really a difficult one, and could be easily solved with a little discussion. There are some areas of conservation which may not return dollar for dollar in cash. But to examine closely the benefits to be derived from an investment which may actually cost money. (2) There are conservation areas which may cost more money to correct than the moderate continuous conservation practice which safeguard against deterioration; and (3) there are some conservation practices which will actually return a profit on the immediate investment in terms of color cash.

In each of the above cases the economist may then work with the conservator to establish guidelines as to the feasibility of certain programs. It may be even possible to apply the law of diminishing returns on particular practices. But even here since conservation programs are generally based on future need as well as current needs, the demands to be made by additional thousands in future generations must be considered. Here is a case where a step today may save millions tomorrow.

The Governor's Committee on Outdoor Recreation has recently issued a report which seems to embody some of the basic principles. Today Florida is concerned with a state population of 4.5 million and a tourist influx of some 13-million people. In a few years the same kind of demand may be made by a resident population of 10-million and a tourist population of 20-3 million. In the long run the investments which today may cost money may sustain tourism, the hen which lays the golden egg as far as Florida's economy is concerned.

Florida's program of forest conservation is a good example of an investment which returns a profit to the state. The Florida Forest Service is requesting an appropriation of \$4-million to state funds to operate each year of the 1963-65 biennium. The returns to the state far exceed this request. More than 300,000 Floridians depend directly on the state's woodlands for bread and butter. The annual forest products payroll is \$150-million. According to allowances of the U. S. Treasury, approximately one and one-half million dollars of this payroll is returned to state coffers in the form of sales taxes. The wholesale value of primary products is \$475,000,000 a year, five times that it was 25 years ago. Additional remanufacture brings in another \$225,000,000. Sales taxes on these products are estimated in the neighborhood of 6 million dollars. Thus for an expenditure of \$4-million, the state protects the basis of employment for 200,000 people, nurtures an industry producing approximately \$700-million work of products annually, and receives about \$7,500,000 back in taxes.

Some conservation programs pay off in different ways. But all wise programs pay a return on the investment. Florida's natural wealth is a good investment.

"Poisonous Plants Around The Home"

Carelessness with poisonous plants can lead to silent spring for the diaper clan. So, keep a close watch on tiny tots while they are frolicking among killer plants.

Many parents believe in letting infants make "oral explorations" about the yard. It's one way for children to learn about their environment, they say.

Yet, some plants the child may taste are as deadly as a rattlesnake's bite.

A light snack of Gloriosa (climbing lily) tubers has caused death in four hours. One tiny rosy pea with its scarlet jacket and jet black tip is a lethal dose. Lucky for that embryo pea is hard and impervious to moisture. Uncracked, the seed can be swallowed without danger. But, one seed thoroughly chewed brings sure death.

Last spring lantana was blamed for the death of a child. The illness of two others, and a lung injury to a fourth. The death was attributed to eating lantana berries.

Botanist Erdman West with the Florida Agricultural Experiment Station believes there is "he first record of human poisoning associated with lantana plants."

However, it has been known for years that lantana can poison cattle. An alkaloid called lantanol is the culprit.

Touching crushed lantana leaves is known to cause a skin reaction. One child made a rash trip to the hospital after playing by a clump of lantana plants. The exposed skin was marked with white spots and reddish areas.

Lantana grows throughout the state. In south Florida native plants, and elsewhere as ornamentals. Related varieties are grown in Northern Florida as ornamentals.

Lantana is a shrub from three to five feet tall. The flowers are displayed in disk-like clusters on long stalks. Individual flowers have four lobes and are arbutal in the lower part. They are creamy white, yellow, pink, orange or scarlet.

The stems are bluntly square, green or brown, and may be armed with weak sharp spines. Leaves are in pairs or whorls of three.

Lantana berries are green to blue or black, nearly one-fourth of a diameter, and contain one seed.

One tooth of the oleander is reported toxic enough to kill an adult. Children have been made ill by currying oleander flowers around in their mouth while at play.

A number of individuals have suffered serious poisoning after eating frankfurters roasted or leander stems. Inhaling smoke from oleander stems is another way to get deathly sick.

Children playing with pokeberries use its purple berries to make "play ink" or as "wax." They are safe until on lips.

Today Florida is concerned with a state population of 4.5 million and a tourist influx of some 13-million people. In a few years the same kind of demand may be made by a resident population of 10-million and a tourist population of 20-3 million. In the long run the investments which today may cost money may sustain tourism, the hen which lays the golden egg as far as Florida's economy is concerned.

Florida's program of forest conservation is a good example of an investment which returns a profit to the state. The Florida Forest Service is requesting an appropriation of \$4-million to state funds to operate each year of the 1963-65 biennium. The returns to the state far exceed this request. More than 300,000 Floridians depend directly on the state's woodlands for bread and butter. The annual forest products payroll is \$150-million. According to allowances of the U. S. Treasury, approximately one and one-half million dollars of this payroll is returned to state coffers in the form of sales taxes. The wholesale value of primary products is \$475,000,000 a year, five times that it was 25 years ago. Additional remanufacture brings in another \$225,000,000. Sales taxes on these products are estimated in the neighborhood of 6 million dollars. Thus for an expenditure of \$4-million, the state protects the basis of employment for 200,000 people, nurtures an industry producing approximately \$700-million work of products annually, and receives about \$7,500,000 back in taxes.

Some conservation programs pay off in different ways. But all wise programs pay a return on the investment. Florida's natural wealth is a good investment.

Youngsters suggests sampling berries. Cases of juvenile weed poisoning have been reported in Florida after children ate its fruit or sucked on the flowers.

So far as known the ligustrum has a good record in Florida, but in Europe a number of children have died from eating the fruit of this glossy privet. The hydrangea has at least one mark against its name as a poisonous plant.

Most ornamentals are harmless, but to be safe, enjoy their beauty but not their taste. It's a good idea to teach children to avoid putting anything in their mouths except food.

Even crawlers in play pens may reach out between the bars and pull in anything within reach. Grass and most lawn weeds are harmless, but poisonous mushrooms may be growing within reach of a child. The surest way to protect a toddler alone in the yard is to be sure he's not among killer plants.

For additional information, ask your nurseryman for bulletin 175, "Poisonous Plants Around the Home."

Weed Control Sprays Effect On Plant Life

Subject Of Grant Study

A \$15,129 grant has been awarded to the University of Florida's College of Agriculture by the American Cancer Society to find out what happens to chemical weed controls sprayed on crop plants.

Dr. Merrill Wilcox and Dr. E. G. Rogers, both agronomists with the Agricultural Experiment Stations and the College of Agriculture, will conduct the research at Gainesville. Wilcox says grain and legume plants will be grown in the laboratory and then treated with herbicides. The study will then involve finding out what happens to the herbicide once it has been introduced into the plant.

Wilcox explains that this will lead to finding out what effect the herbicides have on plants. The study will also involve finding out what happens to the herbicide once it has been introduced into the plant.

The Agricultural Experiment Stations scientists also point out that the research will be a step toward finding out how to improve herbicides and make them more effective.

Official title of the research study is the "Unsaturation of Lactones in Crop Plants." Wilcox says most of the research in this area has been done by British scientists. Some study was made in this area in the United States following World War II.

Your Library

Like the alchemist of the Middle Ages, who tried to create gold from base metals, the historical novel sometimes tries to create scholars, taking notes on the exploration of World War II, an independent newsman, reading copies of Hitler's MEIN KAMPF and Machiavelli's THE PRINCE, and the novel continues the story, after its fashion, by informing us of the one paramount interest which this graduate of an Episcopal prep school acquired during the war.

How he worked his way up in the newspaper world during the era of jazz and prohibition, his open clashes with Al Capone, and anecdotes about Hemingway, Edmond Taylor, and others all make exciting reading. The description of the five years he spent in retirement from newspaper work, seeking time and inspiration for WRITING (as opposed to newspaper reporting) offers a change of pace. The book has been in circulation for ten years, but it is still good reading, especially for you are just discovering Robert St. John.

WORLD Series, it covers the period from 1905 to 1922, and the four dynasties which were dominant up to this period, the Hapsburg, Hohenzollern, Ottoman, and Romanov. The top-heavy, grandiose dynasties, all out of step with reality and the masses, began their toppling with the shots in the little Balkan town of Sarajevo which snuffed out the lives of Archduke Francis of Hapsburg, and his wife, in the upheavals, revolutions, and world wars that followed on the heels of the shots (the assassin was 19 years old) over 23,000,000 deaths have been a direct result. There is a lot of detail here, neatly tied together.

Florida National Guard Inaugurates New Enlistment Program "Try One"

The Florida Army National unit for a one-year "trial" period this week inaugurated a new, rather than the customary new enlistment program under two or three-year minimum, which men with previous military service are offered a unit-up to 60 years of age who have some opportunity to enlist in a permanent military service either

on active duty or in the reserve program was made here by Lt. Willis A. Browne, Jr., commander of the 1043rd Transportation Company in Belle Glade.

Called "Try One," the program is modeled on a similar plan established by the Florida Air National Guard several months ago.

Army National Guard officials, realizing that a large number of men hesitate to join the Army Guard ranks for a three-year hitch because they are not fully aware of the Guard's opportunities, believe that the "Try One" program will dispel many of their apprehensions.

The Army Guard is hopeful the new program will attract men with considerable experience and training who can fill the gap left by the large number of World War II veterans who are retiring from the Guard after 20 years' service.

Local Girl Wins Citation At Nat'l. A. Q. H. A. Show

Andy Boyd's quarterhorse colt "Mr. Caine" won a citation in the "62" registered stallion halter class Sunday at the National A. Q. H. A. Show at Sand and Spur Stables in Pompano Beach.

The two full-day show featured the best horses in many categories from all over the nation.

Mr. Bill Reese of Belle Glade, former president of Sand and Spur, announced the show. A registered quarterhorse expert from Dallas, Texas was flown in for the judging.

SOUTH BAY AREA NEWS

Mr. and Mrs. Jack Warren of South Bay have had as recent guests in their home: Mrs. Leonard Baldwin and sons of West Palm Beach; Mrs. Ernest Strossle and children of West Palm Beach; and Mrs. Richard Blund of Lake Worth.

Miss Sherri Richardson of Starlings Trailer Park daughter of Mr. and Mrs. W. B. Richardson has been confined to her home with the measles.

Dinner guests of Mr. and Mrs. R. Hall and Frankie for dinner recently at Jeffries Memorial Park were: Mrs. D. S. Richardson, Mr. and Mrs. John L. Taylor and girls, Mr. Charles Evans, Mr. and Mrs. Rayford Hall and children, Mr. and Mrs. James Sconyers and children, Mrs. Raynold Stiles of Clewiston.

Camping this weekend at Fish Eating Creek were Mr. and Mrs. Rayford Hall and children.

Home from Belle Glade Memorial Hospital after three weeks is Mrs. Marie Waters of Frasure's Trailer Park.

Mr. and Mrs. Boyd E. Hughes of Clearwater visited their daughter and son-in-law, Rev. and Mrs. James Fenton and son, Kevin for a few days.

On 15 day leave from Beaufort, South Carolina Marine Base is Billy Jackson son of Mr. and Mrs. M. Jackson of South Shore.

Jehovah Witnesses Of BG West Unit

Back From Convention

We have shortly almost every Circuit convention record previously, established during the history of our Circuit," Solomon Milligan, presiding minister of the Belle Glade West Unit congregation of Jehovah's Witnesses said last night on the group's return from their recent convention held in Miami.

"An appreciative crowd of over 1350 turned out to hear the Answer to 'Who will win the Struggle for World Supremacy,' the feature address by William Anderson, a district supervisor of the Watchtower Society of New York," Milligan said.

The rapid communist expansion plus the race for space control has triggered a serious struggle pregnant with fears of all kinds," Anderson told his audience. "The east-west conflict is only a side skirmish indicative of the greatest of contests soon to come in a war that the Bible calls Armageddon. Fortunately, he continued, the Bible in prophecy foretells the winner of the struggle for world supremacy, God's Kingdom."

An outstanding feature of the convention was the record number of 41 persons baptized in symbol of their ordination as minister of Jehovah God.

In Service

Army Sgt. Joseph Wiley, whose wife, Clara, and mother, Mrs. Myrtle V. Wiley, live in Canal Point, Fla., took part in Exercise GRAND SLAM II May 2 through 7 with other members of the 15th Chemical Group in Germany.

Elements of the Canadian, French and German armed forces also participated in the exercise which was designed to test plans and procedures of NATO forces assigned to Central Europe.

Sergeant Wiley, a member of the group's 9th Chemical Company in Germany, entered the Army in January 1959 and completed basic training at Fort Jackson, S. C.

The 27-year-old soldier was graduated from Everglades Vocational High School in 1953.

A Chevy II wagon looks this big when you load it up

and this big when you gas it up

That, in the eyes of most Chevy II wagon owners, is just about the size of it. A king-size appetite for cargo. But a dainty one for gas. And this, we hardly need to add, is just the kind of wagon we planned it to be. Taut and trim as it is on the outside, we went to great lengths to keep it BIG where a wagon should be BIG. The load platform extends a full nine feet from the back of the front seat to the tip of the lowered tailgate.

CHECK HIS TNT DEALS ON CHEVROLET, CHEVY II, CORVAIR AND CORVETTE

And for all the pepper we packed into that 6-cylinder engine (there's also a choice of an even thrifter 4 in most models), we were careful to keep it simple, easy to service—and a real stickler on economy. Feel in a traveling mood? Well—happy coincidence—this is the time of year your Chevrolet dealer feels in his most generous trading mood. Looks like it's high time you two got together.

South Bay School News

The South Bay P. T. A. had their last regular meeting Monday, May 20th and Mr. Thomas A. Williams outgoing president presented the slate of officers that had been selected by the nominating committee. Mrs. Mary Waters, pres.; Mrs. Ethel Jackson, vice pres.; Martha Woodham, Sec.; Mary Faye Walker, Treas.

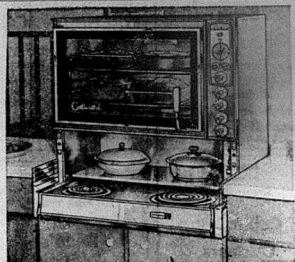

The membership voted unanimously to accept the slate of officers. "Mother" Willis was the installation officers—beautiful corsages were presented to the incoming officers. Mr. Williams outgoing president was presented a past president pin by Mrs. Willis. It was noted that this has been one of the best year that the P. T. A. has had, and Mr. Williams is to be

commended for the fine work he has performed as president of this organization.

The membership voted to give \$75.00 for the summer recreation program, Mr. Ouellette stated that the swimming program will be as in the past and registration will be June 14. The 2nd and 5th grades won the room count.

Mr. Riley Foster program chairman presented a program by the American Cancer Society entitled "Cigarette Smoking and Lung Cancer." Mrs. Bernice Golden, Education Director, and Mrs. Barbara Goodwin, Executive Director of Palm Beach County Unit of the American Cancer Society showed a film and gave an interesting talk on the strong correlation between smoking and lung cancer. She stated "that it has been proven that there is a definite relationship between lung cancer victims and smoking. She also stated that it is estimated that two million teen-agers are added to the rank of smokers each year.

Hostesses for the evening were Mrs. Margie Henderson, Mrs. Darlene Crews and Mrs. Mary Waters. The membership would like to thank Mrs. Henderson for the work she has done as chairman of the refreshment committee. We are looking forward to next year when Mrs. Henderson can continue in the same capacity.

Students Have Smashing Good Time

Hub Spooner and Franci Ball excitedly land a few wounding blows, 2 swats for 25 cents — towards senior trip to Bimini.

The afternoon of Monday, May 20th, found some one hundred students assembled in the Civic Center parking lot, with only one purpose in their minds: to smash, demolish, and virtually disintegrate one another's automobile. And they did.

The excitement was sponsored by the ROTC — a non-school organization of Senior students whose plans include a trip to Bimini in the Bahamas after graduation.

The car was an inoperative but sufficiently beautiful vehicle donated for the cause by Mr. Frank Kruse. Armed with steel hammers, the students in turn took licks at pictures of their "favorite" teachers which had been painted on the sides of

LAKE HARBOR NOTES

By W. S. C. S. — WY 6-2279

Bobby Eldon enjoyed a deep-sea fishing trip Saturday from Boynton Beach.

Mr. and Mrs. Roy Layfield spent a few days visiting Mr. and Mrs. Jim Buck Layfield in St. Augustine and other relatives in Starke.

Mr. and Mrs. Frank Robertson attended the F. F. A. Banquet with their son, Van, Saturday night in Belle Glade.

Mrs. Y. E. Smith, and Mrs. J. A. Henderson were shopping in West Palm Beach Friday.

Mrs. J. D. Stacy and son, Ralph of Bryant visited Sunday with her mother, Mrs. K. B. Eldon.

Mrs. R. L. Saxon spent several days this past week with her daughter Mrs. R. M. Easton and family in Fort Lauderdale.

Claude Robertson and Kenneth Ferria from Key West were weekend guests of the Frank Robertsons.

Mr. and Mrs. Walter Jenkins, Susie, Ricky, and Diane of Atlanta, Georgia visited Mr. and Mrs. Marvin Lee and girls, Mr. Jenkins and Mr. Lee were shipmates in the Navy during World War II.

Mrs. Leland Plank and Mrs. John D. Hemphill were in West Palm Beach on business Friday.

Mrs. Leland Plank and Miss Susie Hemphill were shopping in West Palm Beach on Saturday.

Mrs. C. A. Revels and Mrs. Marjorie LeFils spent Wednesday afternoon in West Palm Beach.

The Annual Homecoming Day will be held at the First Baptist Church in Lake Harbor next Sunday, May 28. Everyone is cordially invited to attend and bring a basket lunch.

Mr. and Mrs. Pete Haulcomb visited Sunday with her mother, Mrs. Idella Finley in Pahokee.

Lake Harbor M. Y. F. Elect Officers

Enjoy Picnic At Lantana Beach

The M. Y. F. of the Community Church went to Lantana Beach on Sunday afternoon. It was a perfect afternoon for the occasion. Following a good time at the beach and in the water, the picnic supper was served consisting of fried chicken, potato salad, sandwiches and lots of other good things.

After supper the group went on the sun deck of the bath house for the evening meeting. After a singing period, new officers were elected as follows: President, Ronny Lee; vice-pres., Vonnelle Rogers; Secretary, Alice Robertson; Treasurer, Donald Bailey; Program Chair, Margaret Bailey.

The meeting closed with the group in a friendship circle singing "We are Climbing Jacob's Ladder," followed by the M. Y. F. Benediction.

Among those attending were Janie and Ronny Lee, Claude and Alice Robertson, Donald

and Margaret Bailey, Martha Lynn and Molly Thomas, Mary Ruth, Vonnelle and Norma Jean Rogers, Laura and Sherry Lee, Audrey Mathis, Gail Royal, Billy and Lynn Conley, George Soto, David Johnson, Susie Hemphill, Ted Blauser, Mrs. Leland Plank and Flint, Mrs. A. B. Mathis, Jr., and Mrs. H. D. Merriam. Mr. and Mrs. Frank Robertson and Mrs. John D. Hemphill.

Jameson Give Dinner

For Meth. Young People
Rev. and Mrs. J. O. Jameson entertained the young people of the Community Methodist Church, Lake Harbor at a turkey dinner Thursday evening in the church annex.

Enjoying the delicious dinner and fellowship were: Ben Prewitt, Donald Bailey, Jim Pope, Van Robertson, Charles Johnson, Ted Blauser, Billy Conley, Janie Lee, Robin Thomas, Tyra Lee, Vonnelle Rogers, Norma Jean Rogers, Susie Hemphill, Ronny Lee, Alice Robertson, Margaret Bailey, Audrey Mathis, Mary Byars, Mary Ruth Rogers, Martha Lynn Thomas, Molly Thomas, Gail Royal, Linda Plank, Judy Plank, Sherry Lee, Mrs. Julia Hemphill, Counselor for the M. Y. F. Mrs. Frank Robertson assisted the Jamesons in serving. Following the dinner, speeches were made by Rev. Jameson and Mrs. Hemphill.

Singing by the entire group closed a very pleasant evening.

Portrait Given

Library In Memory Of Clarence Tilton

Mrs. Clarence Tilton, presented a copy of the most famous portrait in the world to the Belle Glade Public Library. This portrait was given in memory of the late Mr. Clarence Tilton. The painting is of Mona Lisa Gioconda. The original was painted by Leonardo da Vinci. Mr. Tilton's interest in and efforts for the library are well known. During his long residence here, he gave unstintingly of himself and his time in support of civic organizations and functions.

PBC PTA Council Installs Officers

The PTA's of the Belle Glade Elementary School and Jr.-Sr. High School were hosts to the Palm Beach County Council at a meeting at Jameson Hall, Community Methodist Church, followed by a luncheon served at the School Cafeteria. Mrs. Frank Myers of Lake Worth was installed president of the PBC Council of Parent Teacher Associations and other officers assuming two year terms were Mrs. Vincent Cartwright, Palm Springs first vice-pres.; Mrs. Adger L. Wright, second vice-pres.; Mrs. Della Jackson WBB, vice-pres. of the committee on education. Officers held over were Mrs. Willard Findling WBB, corres. Sec., and Charles Bowser, treasurer.

UNCLE DAN from DOOLIE says:

Dear Mister Editor:
The feller at the country store Saturday night was going a little easy on the Congress for a change and was devoting the program mostly to personal matters.
But Isaac Cornfodder did report he had saw a statement by Senator Symington that the Navy has got enough canned hamburger in storage to last for 59 years and 2 months. Isaac allowed as how he wasn't complaining about this item on account of he knew this was our regular stockpiling procedure, but he was a little disturbed that they didn't mention no mustard and catchup stored to eat with it.
Ed Doolittle said if it was all the same to Isaac, he'd rather not discuss hamburgers, mustard, catchup and such things. Ed reported he was putting on weight and his old lady was worried about his eating habits. He said she had took to talking about "kalories" and things he ain't heard about till now. Ed claimed his old lady was the

Boys! — Glades Most Important Crop Says Pres. Gulf Stream Council BSA

Miss Molly Forsee is appealing to Rotarians for assistance in her work with the Peace Corps, in case she finds necessity in her assignment to Liberia. Mr. Campbell and President Kirkman are attentive to her appeal.

Howard E. Campbell, president of Gulf Stream Council, Boy Scouts of America (BSA) spoke to the Rotary Club recently. Mr. Campbell's topic was "Boys-The Glades Most Important Crop!" and your neighbor and me and my neighbor. The churches and schools have been given the responsibility of training our youngsters in morals and citizenship. Is this all their responsibility? No. It is yours and your neighbors, and mine and my neighbors, responsibility. When the proper morals and good citizenship are properly instilled in the minds of our youngsters, the crime rates will decrease and the threat of communism to our country will disappear.

Mr. Campbell pointed out that the Glades has no Explorer Scout Post and that scouting aids the home in building good morals and good citizenship plus giving wholesome recreation while doing this. It is the only organization devoted entirely to building good character and citizenship plus providing a lot of fun at the same time.

Mr. Campbell closed by urging the club to sponsor an explorer Post for our boys 14-18 years of age.
David E. Patterson Leaves For Italy
David E. Patterson, Sr., long time Herald subscriber from Philadelphia, Pa., writes that he leaves soon for an indefinite visit to Italy. For many years Mr. Patterson has been a keen follower of the development and growth of the Glades area.

Lodie Greer Patient At St. Mary's

Mr. Lodie Greer entered St. Mary's Hospital Tuesday for surgery and medical care, expecting to be a patient there for a week or more.

Graduation Nears

The theme of class night, which will be held June fourth, is Ball Hai Holiday. Some of the girls are busily making flowers

The usher for class night are Leah Poston, Sharon Motes, Laura Rogers, Barbara Collins, Evelyn Harris, and Kay Campbell.

HUMOR

HUMOR

By Mary Lou Raulerson

Neighbors are a class of people commonly found in towns, cities, and suburbs. They own such things as cats, children, chickens, dogs, and cars with loud mufflers. Neighbors seem to have no trouble making other people in their area hate them but they have no dislike themselves for other people. The problem is thus—how to make neighbors dispise you.

If you follow these rules you will find even persons within a five mile radius wishing with all his might that he could kill you.

1. Buy a stereo with a full volume range.
2. Construt an outside speaker.
3. Play at maximum volume at all times.
4. Have parties that last until

3. a. m.
5. Raise animals for a zoo in your back yard. Be sure to have a strong-voiced rooster.
6. Allow all of your animals to over-run the neighborhood.
7. Paint your house loud, vivid colors.
8. Buy color TV, swimming pool and hire a yardman.

Yes, your neighbors will turn green with envy and probably take crack shots at you with a BB Gun. There is but one warning: beware of a knock on the door. It might be possible that

Chem Study

A new and interesting subject being introduced into the curriculum next year is **Chem Study**. The Chemical Education Material Study was set up by the American Chemical Society.

The purpose of **Chem Study** is to develop new teaching

materials for the high school chemistry course, including a textbook, laboratory experiments, and films. It is designed to stimulate and prepare those students who want to continue the study of chemistry in college.

Also, it has been made applicable to the general students who takes high school chemistry rather than to the gifted or upper part of the typical high school class.

Chem Study was given a preliminary trial in the laboratory and classroom at Chem Study institutes held at Cornell and Harvey Mudd Colleges in the summer of 1960.

All of the one hundred new teachers decided to use the materials in their classes during the school year 1961-62.

In addition, all of the trial teachers from the first year decided to use the materials again. About 158 teachers in 135 schools are currently using the materials with about 12,000 students.

To Cuba... With Vigah!

Granted, there are many differences between the two crises requiring difference in their handling, and neither this writer nor anyone else has a pat solution to solve them. But it must rather sally in the eyes of the world for us to be willing to up our lives in the far corners of the earth to combat communism, but maintaining a semi-complacent attitude in our back yard by preventing the anti-Communists Cubans from fighting that same Soviet menace.

GIRL SCOUTS

The highlights of the year took place this past weekend for the Girl Scouts of Troop 284. They enjoyed a weekend of camping at Fishcreek Creek. Many girls showed their talents and skills, especially those taking fishing poles. Adventures were in store for a few of the girls that had never been camping.

The weekend visitors were one big turtle, one kitten which was adopted by one of the girls, and many frogs and spiders. Oh! Yes, even a smelly skunk too.

On Saturday they closed the day by the campfire with songs and skits.

The group of tried but happy girls returning home Sunday afternoon were Kathy Allen, Linda Bauman, Bonnie Berryhill, Cecelia Broome, Diane Brown, Della Davis, Sue Hughes, Thea

Kicklighter, Debbie Lewis, Tina Lockhart, Mary Ellen Murray, Donna Rashley, Sandy Sprinkle, Nancy Stratton, Lillian Tomney, Nancy Wolf and Carolyn White.

Chaperones for the weekend were Mrs. Jean Davis, Mrs. R. E. Hughes, Mrs. Emil Wolf and leader Mrs. G. U. Sprinkle.

Troop 281 with Mrs. Clarence Kidder and Mrs. Mendal Luce School for a brief Troop and Patrol meeting. After which they all attended in a body the Adult Education Art Show held from 3 to 5 at Belle Glade Civic Center, by the class with Mrs. Margaret Barwood as instructor.

The troop makes special field trips throughout the year as part of their training and also attend special exhibits and shows on the cultural side as well.

Girl Scouting

Questions Often Asked... And Answers

Since the Annual Girl Scout fund drive is underway the Palm-Glades Girl Scout Council has prepared these questions and answers in an effort to provide adequate information for those who are not acquainted with scouting.

Q. What is the purpose of Girl Scouting?

A. To help girls become happy, resourceful individuals willing to share abilities as citizens in their homes, communities, our nation and the world.

Q. What are the ages of Girl Scouts?

A. Seven through seventeen.

Q. How can I get my daughter in a Troop?

A. Call your neighborhood chairman or troop organizer or contact the Palm Glades Girl Scout Council, Bldg. S-1135, P. B. 1, Airport, West Palm Beach, Florida.

Q. Are Girl Scout leaders paid?

A. The Girl Scout movement is a volunteer movement. Troop leaders are volunteers interested in working with girls. Less than 1 percent of the adult leaders are paid professional workers.

Q. What is the Palm Glades Girl Scout Council?

A. Six and one half counties of Southeast Florida make up the Council: i. e., to wit: Palm Beach, Martin, St. Lucie, Indian River, Okeechobee, Glades, and one half of Hendry County.

Q. What services does the Palm Glades Council give our girls?

A. In addition to the regular and continuing work of the professional staff, the council provides news items and ideas through a bulletin — assistance in planning neighborhood event leader training courses given as close to home as possible, and others as requested. The Council maintains several campsites and camping equipment for troop use. Council services go to the troop leader, who works directly with the girls.

Q. How will my donation be used?

A. Money received in Fund Drives and Unit Funds within the Council becomes a part of the total Council operating budget and is used to provide the services listed.

Q. How about Funds from the Cookie Sale?

A. None of the operating budget is used for the acquisition, development or maintenance of capital investments. Girl Scout cookie funds are used for camps. A percentage is used to supplement the operating budget.

Gladettes League

Only one more week remains in this league. Team positions that cannot be damaged are Wallis Pharmacy first place; Oyster Cattle, Hauling second place and Kirchman Co. third place. High individual games and sets went to M. Brane 213, 228-618; D. Graber 183, 198, 542; R. Goodbread 187, 480; Melissa Oyster 195; M. Gough 174. High team games and sets were won by Oyster's with 787-2239; Angel Bros. 759 game; Kirchman Co., 2197 set.

Local Buyers To Attend So. Apparel Exhibitors Market In Miami Beach

400 of the nation's largest women's apparel manufacturers will be on hand when the Southern Apparel Exhibitors stage their annual Late Summer-Back to School-Fall Market in the Miami Beach Convention Hall, June 2nd, 3rd and 4th.

The market which each year draws more than 2,000 buyers from department stores and retail shops from all over the southeastern part of the U. S. will begin registration on Sunday morning at 9:00 a. m. and remain open 'till 9:00 p. m. Show hours on Monday and Tuesday are from 9:00 a. m. 'till 6:00 p. m.

Among those attending will be Mr. and Mrs. Alfred Kahn and Mr. Joe Kahn of Kahn's Store, Mrs. Sue Kaufman of Sue's Specialty Shop and Mr. and Mrs. Dave Lee of Dave's Palm Beach Shop in Belle Glade.

Charles Jacobi, president of the 350 member group who travel the southeastern part of the U. S. for the leading apparel manufacturers, stated that "As in the past, the market week of the S. A. E. will be devoted exclusively to the showing of women's apparel, thus making it the only market of its kind in the U. S."

The organization will again hold "open house" in its "hospitality room" where buyers may relax and enjoy the hospitality of other registrants and to partake in refreshments.

The organization stages three market weeks each year to take care of the various buying seasons.

Nat Geller is the executive director and maintains offices at 35 N. E. 17th Street in Miami.

The eleven sons of Mr. and Mrs. Conrad Hamburg of Gering, Nebraska, amassed a total of 68 years of military service.

Of this total, eleven were in combat with seven brothers serving in WWII and three in the Korean conflict. Five of the Hamburg boys were members of the National Guard.

Mollie Forsee Off For Liberia

Miss Mollie Forsee was among the 42 Peace Corps Volunteers, departing for Liberia by jet from New York's Idlewild Airport Tuesday, May 14 to become teachers in elementary schools throughout the country.

The Government of Liberia in conjunction with the agency for International Development has launched an extensive program of building schools which volunteers will staff. Volunteers will also provide temporary replacements for Liberian teachers, who are to receive further teacher training.

The volunteers completed a ten day home leave after finishing eight weeks of intensive training at Lincoln University in Pennsylvania and three weeks at a Peace Corps camp in Puerto Rico. Miss Forsee visited her parents Dr. and Mrs. William T. Forsee, Jr., and while here was a guest of the Belle Glade Rotary Club, telling the group about her assignment in Liberia. The Peace Corp will work under the supervision of the Liberian Department of Education and local school officials.

The volunteers are expected to teach a full schedule of courses, and participate in after-school activities. Before undertaking their teaching assignments, they will have several days of orientation in Monrovia, the capital city.

Future Nurses' Club Installs Officers

The Future Nurses' Club held its annual installation of officers at the Cottage Grill, Tuesday, May 14, at 7:00 p. m.

Mrs. Roy Litchfield, Club Sponsor, installed the new officers, after which a delicious meal was enjoyed.

Those installed were President, Kay Campbell; Vice President, Margie Townsend; Secretary, Billie Graber; Treasurer, Julie Abel; Historian, Linda Sue Dubose, and hostesses, Laura Rogers and Velma Dunham.

Tyra Lee, outgoing President, received a bouquet of roses and a Charm bracelet in appreciation of her years' service.

Others attending in addition

Cub Scout Pack Meets

Friday May 24, 8 p. m.

The Cub Scout Pack will be held at Jameson Hall Community Methodist Church, Friday, May 24 at 8 p. m.

Den 7 will present a skit for the evening's entertainment and there will be a cube decorating contest, which will be most exciting as each cub will decorate cakes which they bring. The cakes will then be served with coffee and Koolade following the meeting.

The Pack would like to have anyone interested in the Cub Scouts come to the meeting as well as prospective cub parents.

Those already mentioned were Mary Ruth Rodgers, Josephine Crouch, Becky Sims, Robyn Davis and Mr. Roy Litchfield.

Jest Camping Trip This Year

Wonderful weather and good fellowship combined with fishing at Camp provided Troop 61 with their first camping trip this year. Last year the troop had a joint camping trip with Troop 13, from West Palm Beach. The Scouts from both troops promptly voted to have another one this year. You guessed it, they had such a good time they want to do it again, and the adults that attended are in complete agreement with the vote.

Late Friday afternoon was spent setting up camp, dodging the swarms of weekend campers looking for a little weekend rest and ease, eating supper and getting ready for patrol campfires, not to mention a quick swim.

Scoutcraft Classes

Saturday morning came bright and clear, with a flock of crows jumping the gun on reveille around 5:45 a. m. These noisy fellows soon found out that they were badly outnumbered by 40 some-odd loud yep Scouts, and moved on to another place in search of a more appreciative audience. Scoutcraft classes were conducted the first part of the morning. These were, Axe and Knife sharpening, and the safe handling of same. Second class mapping, cooking merit badge requirements and demonstrations, locating and identifying 10 trees and shrubs, listing their uses, locating and identifying 4 edible wild plants, listing the parts that could be eaten and how they should be prepared for eating, either cooked or raw. Good news for campers in that area, 19 edible plants were found. All that took the course agreed that you would have to be starving to death before most of them could be consumed, so unless you are starving, better take your own food.

The creek is really low this year and muddy, in fact this is the first time the Scouts have ever gone swimming to get dirty. This didn't keep 25 scouts and Troop 601's mascots from passing their first class swimming requirements.

The fourteen adults on the trip were treated to a chicken

Bar-B-Que Saturday night was a great success, but one thing would never grab any of the songsters for his chorus. The Indian dances put on by Troop 13's tribal dancers added a lot of color to the campfire. The dancers were members of the Troop Tribe which is made up of outstanding Scouts and Scouters in the Troop. The members are selected and brought into the Tribe with a very colorful Indian ceremony. Four members of Troop 601 were tapped out as honorary Blood-Brothers of the tribe with all of their ceremony, leaving out the ordeal that regular members must face. Those tapped out were Scoutmaster R. H. Lewis, Assistant Scoutmaster C. E. Haines, Scouts Eddie Haines, and Charles Ruff. These Scouts and Scouters were cited for their willingness to help

others, and for their work in scouting in the Glades District. Another highlight of the campfire was the presentation to Mr. Henning, by his Troop, of a Scout camping hat for his birthday.

Sunday Services

Sunday morning church services were conducted by the Scouts. Jimmy Neathery, Asst. Senior Patrol Leader, brought the main message of the service. His subject was from Luke, concerning the Good Samaritan, and how the Scouts Slogan "Do a good turn daily" might well have been taken from this part of the Bible.

In addition to the many birds and animals that were seen on the trip, a number of the scouts were treated to the rare sight of an "Audubon's Caracara." This bird normally ranges only in parts of central Florida and Texas, its home range being Mexico.

Scouts and Scouters attending were: Scoutmaster R. H. Lewis, Asst. Scoutmaster C. E. Haines, Troop Committeemen, Myron Ludlow, Wilbur Mincey, Fathers, Jimmy Snow, Eddie Jones, and Jim Winchester. Glades District Chairman, and former Asst. Scoutmaster of Troop 601, Frank Thomas, attended as a guest of the troop. Scouts: Eddie Haines, Jimmy Neathery, Jeff Hansford, Paul Prescott, Paul White, Tommy Altman, Jimmy Mincey, Dickie Snow, Dennis Connell, Ronnie Cooper, Jerry Williams, Charles

Ruff, Henry Tomey, Jimmy Winchester, Greg Jones, Brian Moore, Stuart Chappell, Jimmy Bedsole, Wally Lutz, Terry Miller, Eddie Haines, and Mascots, Chippy Haines, Chip Lewis.
